

Olga Hugelmeyer, Ed.D.  
Superintendent of Schools

June 30, 2025

Dear Parents and Guardians:

Elizabeth Public Schools recognizes the important role of providing safe and secure schools and works diligently to provide all students the safest and most comfortable learning environment possible. As required by the New Jersey Department of Education, our district contracted Whitman Environmental, an environmental engineering consultant, this past 2024-2025 school year to test the quality of the district's water sources at all schools and determine if there was any presence of lead. The test results are posted on the district website.

At the site of Robert Morris School No. 18 Annex, a water fountain was in need of remediation and was shut down.

Elizabeth Public Schools will continue to be vigilant and proactive in its approach to maintaining a safe and secure learning environment to better allow students to focus on achieving at high levels.

Thank you for your continued support of the Elizabeth Public Schools.

Sincerely,

Dr. Olga Hugelmeyer  
Superintendent of Schools
