Our Earth Day Promise

I will stop buying plastic cups and promise to recycle. I will buy metal reusable cups instead of plastic cups. I want to save the world. Animals are part of nature. They are living things which make nature life, and alive to us.

Our Earth Day Promise

I can save the Earth by picking
up trash that's on the floor or the
ocean and throw it in the
garbage. I can also fix my stuff
like a shirt instead of throwing it
in the garbage.

Gabric

Our Earth Day Promise

Using a reusable water bottle, so you don't throw
away plastic, throwing away plastic in the recycling bin,
I will also not waste resources such as water by
not letting the sink run too long.

Martin Torres

Our Earth Day Promise

Earth day is a very important because we live on earth and there many things we can do to help like reusing things for example instead of using plastic water bottles you can use reusable ones. My Earth day promise to recycle and reuse more.

-Martin Torres

Mike P

Our Earth Day Promise

I Promise to recycle, reduce and reuse.

I also promise to use less plastic.

Our Earth Day Promise

I promise to take better care of the Earth
by recycling, picking up trash, putting plastic
in the recycling bin, et cetera.

BY Sarah

Estiben

Our Earth Day Promise

To help Our earth in earth day
I will reuse things that we can
use or recycle things that can
help the water and earth.

Our Earth Day Promise

We can save our Earth by recycling the plastic bottles. We can also help our Earth by throwing away the trash.

George

Our Earth Day Promise

I will clean the ocean because the ocean need
to be healthy. I will not throw trash in the
ocean because the fish needs to stay healthy
and not be dead. Then I will go to
the ocean because I have to see if
the fish is alive and healthy.

- Sincerely, everyone.

Our Earth Day Promise

I promise to recycle old reuse
stuff every DAY because of earth
Day. By ERIC FACAL.

Our Earth Day Promise

A couple ways we could help our planet is by, reuse, if we reuse we would lower the trash rate by alot. Another way would be, recycle again for this not only will the trash rate go down also the trash in the ocean and water!
