

Our Earth Day Promise

In honor to Earth Day, TCR bilingual scholars in Mrs. Hernandez and Ms. Taborda's class participated in many activities. Students first visited the Reilly Garden as they rolled up their sleeves to remove weeds and debris. Following the clean-up, students planted the seedlings that they had been growing in the classroom. In the end they partook in adorning the garden by arranging the colored rocks. After their hard work they listened and discussed the story "The Giving Tree" while under the shady tree. When scholars returned to their classroom they created a dye window art Earth model as they promised to care for Mother Earth.
