

Olga Hugelmeyer
Superintendent of Schools

September 6, 2018

Dear Parent(s) or Guardian:

As we continue to monitor the temperature, our excellent team of dedicated professionals will continue to take all necessary precautions to maintain a safe learning environment and keep your child(ren) as cool and comfortable as possible.

As stated previously, these measures include lowering window shades, using portable fans where available, limiting activities during physical education classes, and keeping students inside during lunch recess.

Schools are continuously observing and recording of temperatures in all school classrooms and will be moving students to cooler areas in the school building upon reaching benchmark temperatures of 90 degrees or above.

We have also placed an emphasis on hydration by providing students and team members with frequent water breaks throughout the day.

We thank you for your patience and understanding as we work through the challenging weather conditions and anticipate that they will not present further issues beyond today's school day.

Sincerely,

Olga Hugelmeyer

Office of the Superintendent of Schools
