BOARD OF EDUCATION MEETINGS

Board of education meetings shall be a primary means of sharing information with community members and inviting their comments and suggestions. Regular and special meetings of the Elizabeth Board of Education are open to the public and representatives of the media, except when, by resolution at the public meeting, the board excludes the public from those parts of a meeting which deal with matters held confidential in accordance with law.

The board welcomes participation of interested organizations and individuals and will schedule time as appropriate for the public to speak. The length of time scheduled for public discussion shall be stated in the agenda, together with any time limit proposed for individual speakers. Participants may address the board for a total of three (3) minutes. The presiding officer shall limit the total time of public participation to sixty (60) minutes. No individual is able to yield their time to another individual. The administration will create a regulation to ensure the orderly participation of the public at meetings.

The board will not permit unnecessary or undesirable identification of district students at public or board of education meetings, particularly when the student is subject to disciplinary action, or has been identified as having a disability. A special confidential file shall be kept of the names of students with disabilities on whose behalf the board must take public action. An unidentifiable coding shall be used when referring to the student.

Comments and questions at the end of regular and special meetings may deal with any topic related to the board's conduct of the schools. Advance announcement of all regular, scheduled special, and specially called meetings of the board is made through newspapers and other appropriate media outlets.

The board shall include a discussion of the School Ethics Act and the Code of Ethics for School Board members annually at a regularly scheduled public meeting.

In a regular meeting by September 30 of each year, the chief school administrator shall report to the board the number of students graduated and the number of students denied graduation from the prior 12th grade class. This report shall include the number of students graduated under the special education and special review assessment procedures outlined in administrative code.

Non-categorized schools shall discuss the school performance report (SPR) publicly. The school performance report is an annual New Jersey Department of Education report released for every school in New Jersey that sets specific school- and subgroup-performance targets for both language arts and mathematics, and detail the school's annual progress toward meeting the targets. The report includes a range of data, including progress toward closing achievement gaps, comparison to peer schools with similar demographics, growth over time as measured through student growth percentiles (SGP) on State tests, and additional college- and career-readiness data points. The reports support school districts' and schools' engagement in performance management by setting performance goals, identifying strengths and weaknesses, and developing local plans to focus on
low-performance areas.

In addition the district shall report on progress made in meeting the adequate yearly targets established for closing the achievement gap as set by the Department of Education.

5. The number of students denied graduation from the 12th grade class solely because of failure to pass the Department of Education approved high school proficiency assessment or the AHSA.

AD HOC ADVISORY COMMITTEES

Community and/or parent/guardian advisory committees can be particularly useful both in keeping the board and administration informed with regard to community opinion and in representing the community in the study of specific school problems. The Elizabeth Board of Education shall, when required by law or when it finds it beneficial, appoint advisory committees to assist in research projects, long-range studies, program evaluation, and development of policies or educational goals/programs. Each committee shall be appointed for a specific purpose and time. The board may dissolve any board-appointed committee at its sole discretion.

Such committees shall be representative of the community in relation to the tasks delegated to them, and may include staff and students when appropriate. No appointee shall represent an organization, geographic area, religious group or any other subdivision of the community in an official capacity.

Systematic programs shall be set up to draw on the assistance business, labor, and other organizations have to offer in developing vocational, technical and enrichment programs and in providing students with practical work experience.

The board shall adopt the committee structure and organization it deems appropriate to the assignment at hand, except for funded programs where requirements are set by law. The board president is responsible for appointing all members of a committee and the method of their selection in consultation with the chief school administrator. Staff members shall not constitute a majority of any general community advisory committee.

Recommendations from the committee shall not reduce the responsibility of the board, which shall be free to accept or reject the recommendations as it sees fit. Only the board has the power to act. It will be the responsibility of the chairperson to see that the members of the committee are informed as to the final decision of the board.

Any publicity concerning the organization, membership, operations, findings or recommendations of any committee shall be released only by the board designee.

In district-initiated advisory committees, the chief school administrator shall draft procedures for instructing committees as to the length of time each member is being asked to serve, the services the board wishes them to render, the resources the board intends to provide, and the approximate date on which the board wishes to dissolve the committee. Furthermore, the committee shall be instructed as to the relationship it has to the board, to the individual board members, to the secretary of the board, to the chief school administrator, and to the rest of the professional staff.

When the law regulates the formation and activities of an advisory committee, the administration shall cooperate fully in its activities.

SCHOOL-CONNECTED ORGANIZATIONS

The Elizabeth Board of Education will encourage the work of a general, voluntary, school-connected organization of parents/guardians, school staff and friends of the school in each school. Such organizations may not establish educational policy, participate in the administration of the school, or authorize management and direction of school affairs.

Such organizations shall have as their objectives the promotion of student welfare; the development of close relationships between the home and the school; and the development between educators and the public of such united efforts as will secure for every student in the schools the best kind of educational program possible.

Organizations shall not use the district's name in their titles without the board's express consent. Such permission to use the district's name does not constitute permission to act as the district's representative.

The board shall make it a practice not to interfere in the internal workings of such groups.

Permission to hold regular meetings of such organizations in school facilities will be extended by the board of education for a particular school year, in accordance with policy #1330.

VISITORS

The Elizabeth Board of Education welcomes visits to school by parents/guardians, board members, other adult residents of the community and interested educators, when they fit into the classroom or school routine. In order for the educational program to continue undisturbed when visitors are present, and to prevent the intrusion of disruptive persons into the schools, the chief school administrator shall devise regulations addressing visitors’ access to the schools.

All visitors shall be required to report to the principal's office upon entering the building.

A "visitor" is anyone other than a student enrolled in or a staff member employed in the particular school. Visitors may not consult with the teaching staff or students during class time without the principal's permission.

Staff members and students are strictly prohibited from propping doors open. Students and staff members shall not open a door for anyone. All persons seeking entry to the building shall be directed to the main entrance.

For the purpose of preventing unauthorized entry into the district buildings, the building principal shall ensure that:

A. The school’s main entrance is clearly marked so that it is easily visible and recognizable;

B. Exterior doors are locked, and when they are in use for a large entry/exit, staff members, security personnel, law enforcement officers or other representatives of the district are assigned to monitor them;

C. Entrances are clearly marked with a numerical sequence to allow for specific response by police, fire, and emergency medical services responders;

D. A limited number of doors are available for access by staff and the staff members shall be informed of which doors they are authorized to use;

E. Security personnel working in the school building are dressed in uniform.

When the parental rights of a parent have been terminated by a court of appropriate jurisdiction, the legal guardian must inform the school so that the administration may apply appropriate regulations. The principal shall seek confirmation of legal custodianship where necessary.

No one may visit the school during school hours for the purpose of recommending or exhibiting books, maps, etc., to staff. No person shall be allowed to deliver any address or lecture on any subject unless authorized by the chief school administrator or designee.
All visitors to the schools must obey regulations prohibiting smoking and any other regulations designed to ensure orderly operation of the school. All persons violating this policy shall be considered "disorderly persons" and subject to appropriate action.

Visitor Procedures for Contagion Prevention

In order to prevent the spread of disease during pandemic recovery and to protect the health and safety of students and staff against infection, no visitors shall be permitted in the schools until pandemic restrictions are lifted. The principal may admit a visitor if he or she determines that it is necessary. In all such cases, the visitor shall submit to the screening procedure (e.g., temperature and exposure questionnaire) and shall be required to wear a face mask while in the school building. The face mask shall be required in all cases. However, an accommodation may be made where the visitor can demonstrate that wearing a face mask is detrimental to the visitor’s health. A child under two years of age shall not be required to wear a face mask.

DATA DASHBOARD

Purpose

The purpose of this policy is to establish a “data dashboard” for the Elizabeth Public Schools. Although the Elizabeth Board of Education tracks district performance in many ways throughout the year, a data dashboard will enable the board and the public at large to monitor key indicators of system performance, including student achievement, finance, operations, and stakeholder satisfaction. We believe these data are essential in order for the Elizabeth Public Schools to attain and maintain excellence in all areas. The indicators will enable the board to see, at a glance, whether current improvement efforts are on track and to respond appropriately when problems arise. Furthermore, the indicators will enable the district to effectively and clearly communicate its priorities and progress to the public.

Definition

A data dashboard consists of a limited number of carefully selected indicators for which data are gathered and analyzed by district staff, under the direction of the chief school administrator, and presented on a regular basis to the board and the public. A well designed data dashboard:

A. Provides a concise, but comprehensive summary of district performance;

B. Presents data clearly and in an easily understood manner;

C. Communicates the Board’s priorities to the community; and

D. Contains regularly updated information based on regular management reports and management oversight workshops.

Need for a Data Dashboard

The Elizabeth Public Schools Data Dashboard is aligned with our district’s Theory of Action: Managed Instruction and the Elizabeth Public Schools Accountability System. A data dashboard will enable the Board to effectively fulfill its responsibilities for overseeing the management of the Elizabeth Public Schools. Furthermore, the data dashboard will provide the public with the information needed to understand the district’s priorities and ensure that public funds are being spent prudently.

Statement of Intent
It is the intent of the Elizabeth Board of Education that this data dashboard be reviewed and updated regularly, and that it be widely disseminated throughout the district.

CONSTITUENT SERVICES

The purpose of this policy is to respond to constituent inquiries, issues, concerns, questions, compliments and comments, addressed to the Board for resolution and for use in systemic improvements.

The board of education recognizes that its ability to service requests in an efficient, timely and courteous manner is a critical component necessary to promote continuous system improvement, to inform, educate and to support the needs of the Elizabeth Public Schools. As elected officials acting on behalf of the children, parents and taxpayers, the Elizabeth Board of Education board members’ role in constituent service is to facilitate management’s ability to resolve problems effectively without becoming involved themselves in directly solving problems or handling management issues. All Elizabeth Board of Education board members will be trained on an annual basis on this policy. All new Elizabeth Board of Education board members will be trained following the annual reorganization meeting as part of the induction process.

Defining Constituent Service

Constituent service is defined as ensuring that management takes responsibility for providing residents the services they rightfully should receive from their elected school Board representatives and employees of the Elizabeth Public Schools. The following definitions apply:

A. Constituents are residents of the community who are represented by elected Elizabeth Board of Education members. Constituents include students, parents, guardians, employees with children in the district, taxpayers and members of the community;

B. Governance is the primary role of the elected Elizabeth Board of Education members. Governance involves ensuring the delivery of required educational and support services in the District by providing oversight and policy to the chief school administrator regarding those services and desired results. Governance is strategic and involves the development of policy focused on effecting system improvement;

C. Management is the responsibility of the chief school administrator who is an employee of the Elizabeth Public Schools and operates within district policy established by the Elizabeth Board of Education and all applicable local, state and federal laws and regulations. Management includes directing staff, allocating resources, administering programs and providing support services to improve school system effectiveness and successfully achieve district objectives;

D. Appropriate constituent service ensures that management takes responsibility for helping constituents receive the services that the Elizabeth Public School system provides, using the resources provided for those services;

E. Inappropriate Constituent service is defined as board member involvement in management or delivery of specific services or desired results, even if the problem is serious and/or the Board
member’s involvement is minimal. This ensures that board members do not confer special advantage on staff, parents, students, vendors or any other person or entity outside regular decision-making processes established by policy or management to ensure fairness and equity.

System for Constituent Service

The system for handling constituent services requests is based on the establishment of a reliable communication mechanism between the Elizabeth Board of Education members and the chief school administrator that will refer, track, and resolve constituent inquiries. Inquiries in the form of written correspondence, e-mail, or telephone will be managed by electronic means to facilitate communication and record-keeping in the system. Requests will be tracked in the system by category of request, date of response, and a summary of the response (at a minimum). This information will be maintained in a consolidated database until reviewed by the board and chief school administrator.

Constituent requests received by the Elizabeth Board of Education members will be forwarded to the chief school administrator’s designee to be logged into the Elizabeth Public Schools Direct (EPSDirect) tracking system. The chief school administrator’s designee will refer the request to the appropriate department for action. Upon department response and review by the chief school administrator’s designee, the district response will be logged into the EPSDirect tracking system to ensure that all board members are advised of the action on the constituent’s request, keeping the constituent advised of the status, and updating the request in the system.

For requests that come to the Board which have not followed internal protocol for escalation to the Board, Board members may respond in the following ways:

A. Provide information (if known);

B. Refer the constituent to the appropriate office;

C. Refer the issue to the chief school administrator;

D. Request a response from the chief school administrator to be drafted on behalf of the board.

The board and the chief school administrator shall establish written protocols for the above processes and will review the protocols annually.

Protocol for Constituent Service

The protocol begins with a constituent’s request to a board member for information and/or assistance. If the request is for information, the board member should provide the information (if known, and not deemed confidential by statute, code, policy, etc.) or explain to the constituent where or from whom this information should be obtained.

If the constituent requests assistance in addressing an issue or problem, the board member must first
evaluate the validity of the claim and also determine if the constituent is an employee of the board with an employment issue. If the request or the complaint appears to be valid and is urgent, complicated, or has potential for major consequence, the board member should refer the request to the chief school administrator’s designee for administrative action. Further, if the constituent is an employee of the Board with an employment issue, the board member should refer the constituent to follow the district’s chain of command through administration.

If the request or issue is not urgent, then the board member should explain to the constituent the district’s chain of command, clarify the difference between governance and management, and define the Board’s role in constituent service. The board member should then direct the constituent back into the system, that is, to talk to the teacher or principal, transportation office, etc. The board member may need to provide the constituent with contact information. The constituent should be invited to call the board member again if a timely response is not received from the district staff.

If the constituent does not receive a satisfactory response despite good faith efforts to resolve the issue with administration, the issue should be referred to the chief school administrator, which will then take appropriate administrative action.

For every issue, referred to the chief school administrator’s designee, board members will receive a written report on the manner and timeframe of issue resolution. If the issue is significant or requires time to resolve, the chief school administrator’s designee will notify the board member regarding the plans, steps taken, and the time frame for resolution.

The chief school administrator’s designee is responsible for briefing the chief school administrator as needed and for preparing periodic reports for the chief school administrator and full Board showing:

A. Request patterns;
B. System issues; and
C. Work to date to improve systems.

The board and chief school administrator should review the effectiveness of the constituent service system from time to time and make the necessary changes and adjustments. The board members will honor the spirit of the constituent service policy in order to ensure consistent, reliable, and effective responses to requests for information or assistance presented to individual board members.

**Guidelines for Responding to Constituent Requests**

A. The board will implement a constituent services system, which will accomplish the following:

1. Track and monitor the progress for responding to issues and requests;
2. Archive, categorize and analyze requests and responses;
3. Produce reports for analysis and review by the board on a quarterly basis; and
4. Provide a mechanism for quality assurance.
CONSTITUENT SERVICES (continued)

B. The board expects this system to result in:

1. All e-mails and letters will be responded to within 5 business days;
2. Phone calls will be returned immediately whenever practicable and no later than two business days;

CONTESTS FOR STUDENTS

The Elizabeth Board of Education believes the primary educational aims of the schools and the needs and interests of their students must be the most important consideration at all times. Promotional aid, school time, or faculty assistance for student contests involving essay writing, poster-making, or other activities, sponsored by organizations outside the schools, will be permitted only if in the judgment of the chief school administrator a particular contest involves experiences which are closely allied to and in support of the instructional work of the schools and which will clearly serve to advance the educational aims of the schools. The worthiness of the sponsoring agency's cause or the opportunity for individuals to win prizes shall not in themselves constitute sufficient reason for participation.

Contests should not interfere with the operation of the regular course of study in classes, or require a teacher to sacrifice much time from the regularly planned program for students.

Contests and awards whether local, state, or national shall be:

A. For the benefit of the student;

B. Open to all students on a non-discriminatory basis;

C. Consistent with district objectives;

D. Judged by disinterested parties;

E. Properly supervised with safety precautions in place;

F. Voluntary for students and teachers.

Contests and awards shall not place undue time or financial burdens on students, teachers and parents. They shall not promote commercial products or partisan viewpoints. Participation shall not be dependent on the financial status of the student.

Money-raising projects, essay, poster, or any other such contests promoted by outside agencies and organizations must have the authorization of the chief school administrator and the board. All instructions relating to contests shall be issued through the chief school administrator’s office. Full responsibility for coordinating the contests with the schools must be assumed by the agency or organization sponsoring the contest.

USE OF SCHOOL FACILITIES

The Board of Education believes that the school buildings and facilities are a major part of the community and encourages the development of a sense of ownership by the community. Prudent use and management of school facilities outside of the regular operating schedules of the schools allows the community to benefit more broadly from the use of its schools. The Board appreciates the value of the schools to their neighborhoods and understands its responsibility for the long term preservation of the facilities. It shall be the policy of the Board to allow the use of school facilities, provided such use does not interfere with the orderly conduct of the district, in accordance with the proscribed Regulations incorporated into this policy.

The Board will permit use of school facilities when permission has been requested in accordance with the application and permit process set forth in the annexed Regulations. The Board reserves the right to charge users of its facilities for costs associated with security and custodial services and to charge a facilities use fee. The Board reserves the right to rescind, modify, change, or waive fees for the use of facilities. The Board reserves the right to deny permits, which are not consistent with Board policies. The Board also reserves the right to withdraw permission after it has been granted in the event circumstances change requiring school facilities or grounds for a school district purpose or due to a school closing because of weather or other conditions.

Application and Permit Process

Applications for facility use must be submitted to the Office of the School Business Administrator 30 days prior to the activity. The application must include proof of insurance and a hold harmless statement and will not be considered unless these documents are provided. The application must be signed by an authorized adult representative of the organization who will be considered by the Board to be the agent of the organization.

Applications will be forwarded by the Business Administrator to the Superintendent, Director of Athletics, Chief of Security and appropriate building principal for review and approval. The Business Administrator will issue a permit for use of a facility after the application has been approved by the Board and the required payment submitted.

When the organization is using the school facility, it must have the permit to produce to a Board representative. Only the group designated in the permit may use the facility and may not allow any other person or group to use the facility.

Refund of facility use fees will be made if cancellation is made to the Office of the Business Administrator two (2) business days prior to the event. Organizations that have been granted the use of school facilities on a no-charge basis must also give notice of cancellation.
Facility and Use Fees

The District will permit the use of school facilities in accordance with this policy to the following type groups and organizations

A. NJSIAA, County Organization Tournaments

B. Elizabeth local non-public, non-profit community use

C. School sponsored programs, PTA, Board approved youth activities not for fundraising purposes

D. Elizabeth and Union County Governmental Agencies/Group B fundraising Agencies

E. Commercial uses/Government Agencies

F. Religious, Fraternal, and Social Organization functions

To qualify for a waiver of the use fee a group must be a non-profit organization, which is, based in Elizabeth having a membership, which is at least 80% Elizabeth residents. Such groups shall provide together with the application a certification from one of its officers or directors attesting that 80% of its members are Elizabeth residents.

In addition to a facility use fee, all users of school buildings and grounds must pay for the costs associated with security and custodial services. When a school is not normally covered by security or custodial services during the period of use the user will be responsible to pay for such services during the period of use plus one half hour before and one half hour after the actual occupancy.

Regulations

School custodians and/or security officers must be in attendance during all activities conducted in school facilities. The cost of custodians and security officers during non-school hours shall be paid by the user. The Board or its representatives shall determine the number of such personnel required for each event.

In the event that police are required to be present during the event for traffic control or other functions the cost shall be the user’s responsibility.

The users of school facilities must accept full responsibility for any damage to or loss of district property during the use.

The Board assumes no liability to any organization or individuals using school facilities or attending an event at a school facility. The Board requires that all groups or organizations using school facilities obtain liability insurance policies in the amount established by the Board covering bodily injury and property damage naming the Board as an “additional insured” and containing languages that specifically holds the Board harmless for any and all liability.
Prior to the approval of an application for the use of the buildings or grounds of the Board all organizations or groups are required to furnish the Board with a certificate evidencing insurance coverage for not less than $1,000,000.00 for bodily injury and $1,000,000.00 for property damage.

The Board assumes no liability for damages to or loss of property brought into school facilities. The Board shall not be responsible to any user of school facilities for any property, which may be lost or stolen.

The District shall require that the users of school facilities comply with the policies, rules and regulations of the District including the Code of Conduct.

Any organization or group that has been granted the use of school facilities shall assume full responsibility for the conduct of all persons while they are in or about the buildings and grounds. All users of facilities are responsible for maintaining order and during the use of school facilities. No activities may occur at any facility unless there is a responsible adult in charge of the activity.

School buildings and grounds shall not be available during holidays, vacation periods, or during times when use by outside users would interfere with cleaning and maintenance schedules.

Smoking is prohibited at all times in all district buildings and on school grounds.

No alcoholic beverages are permitted on any school property. Gambling and games of chance are not allowed on school property.

The use of school facilities may not exceed the established capacity of the facility.

LOCAL UNITS

The Elizabeth Board of Education wishes to cooperate as fully as possible with other community agencies that serve district students. Cooperation will include pooling resources and exchanging information with other community agencies. The chief school administrator shall seek to develop positive working relationships with community agencies, including but not limited to, police authorities, fire departments, New Jersey Division of Child Protection and Permanency (DCP&P), emergency room and/or squad, other school districts, and all other agencies providing services to district students.

In accordance with law, the district may accept or share the use of facilities or equipment with other local organizations. The terms of the acceptance or sharing shall be decided for each instance.

Police Authorities

It is the policy of the board to cooperate with law enforcement agencies in the interest of the larger welfare of all citizens and to be in compliance with current memorandum of agreement between education and law enforcement officials. At the same time, schools have a responsibility to parents/guardians for the welfare of their children while they are in school. To carry out these responsibilities, the administration is directed to follow the procedures developed to implement board policies, particularly those for policies numbered 5131.5, 5131.6, 5131.7, 5145.11 and 5145.12.

The administrator in charge or his/her designee has the authority to call for police assistance. When a call is made to the Elizabeth Police Department for emergency assistance, the administrator must notify the office of the chief school administrator to the reason and/or circumstances for making said call.

Fire Department

The chief school administrator shall seek input from local fire officials when course materials in fire safety are being reviewed and revised and when procedures for fire drills are formulated. The fire department should be kept up to date on changes in the school buildings and class arrangements so that, in the event of an emergency, they will be prepared. All fires shall be reported to the local fire department in compliance with law.

Division of Child Protection and Permanency (DCP&P)

Procedures for district cooperation with the Division of Child Protection and Permanency are included with those implementing policy 5141.4 Missing, Abused and Neglected Children.

Emergency Room/Squad
The chief school administrator shall establish procedures whereby the facilities of the local hospital emergency room and local ambulance/rescue squad may be called upon in implementing policies numbered 5131.6, 5141.1, 5141.6 and 6145.1/6145.2.

Cooperative Arrangements with Other School Districts

The board desires that strong lines of communication be maintained with other districts and institutions which provide programs, training, or services not available to children residing in this district, and with districts whose resident students are enrolled in programs in this district.

The district in which students are in attendance has responsibility and authority for those students. In order that those students receive maximum benefit from their program of studies, articulation between the cooperating institutions is essential.

Further, this school district shall cooperate with other school districts in the solution of common educational concerns. District staff under the direction of the chief school administrator shall participate in the coordination of such areas as research, exchange of information and data, coordination of curriculum, coordination of school calendar and activities, and any others where it may be advantageous to serve a broader area than this school district. In carrying out this policy, the chief school administrator shall include in his/her reports to the board an evaluation of the desirability and feasibility of cooperation with other school districts.

RELATIONS BETWEEN OTHER ENTITIES AND THE DISTRICT

The board believes that cooperation between the schools and other organizations concerned with youth, career development and mental health will enhance the opportunities of the district's students. Such cooperation will also enable the district to serve its students better through appropriate referrals as in substance abuse programs, special needs, etc. The chief school administrator is encouraged to explore areas of mutual concern with the administrative officers of such organizations and to recommend desirable courses of action.

The board directs the chief school administrator to seek and maintain working relationships with local colleges and universities in such areas as student teaching, inservice staff development and advanced placement.

It is of particular importance to establish and maintain close working relations with trades, businesses and industries which provide members for advisory committees and are possible sources of career placements for our students.

New Jersey Student Learning Standards

The board shall encourage the active involvement of representatives from the community, business, industry, labor, and higher education in the development of educational programs aligned with the New Jersey Student Learning Standards.

The board shall make reasonable efforts to develop articulation agreements with New Jersey colleges and universities to facilitate the delivery of college credit courses to qualified high school students, with the understanding that these credits shall be accepted at all public New Jersey higher education institutions.

Charter Schools

The board shall follow all procedures in code and statute when a charter school is proposed for the district or when district students would be eligible to attend a charter school in another district.

Donations to Private Organizations

The authority for a board of education to expend public funds is derived from the constitutional mandate to "provide for the maintenance and support of a thorough and efficient system of free public schools." The donation of moneys to any private organization, regardless of the merits of that organization's purposes, is not within the authority of the board and is, therefore, prohibited.
