Every Child, Achieving Excellence

FRANCES SMITH (#50) • DONALD STEWART (#51)
DR. MARTIN LUTHER KING, JR. (#52)
TOUSSAINT L'OUVERTURE (#6) • JEROME DUNN (#9)

GREAT LEADERS RECOGNIZED AT ELIZABETH PUBLIC SCHOOLS.

Black History Month is a time to commemorate African Americans who have contributed in changing the world. Throughout the EPS district, celebrations are taking place including performances, festivals, and cultural events.

This month, Jerome Dunn Academy School No. 9 held its First Annual African American History Showcase. Led by School Counselor Jasmine Lee and the MC Kwao Taylor, first through eighth grade student performers dazzled the stage. It was riveting and enlightening. Students paid homage to those whose contributions have made a difference and gave a stellar performance which lifted everyone's spirits.

Groundhog Day!

Groundhog Day! Most people wait for this beloved animal to make a weather prediction on February 2nd. However, this year kindergartners from Mrs. Diane Kennedy's class at School 21 traveled all the way to Mrs. Phyllis Taub's fifth grade classroom at **Madison- Monroe School No. 16**, for some fun and frolic with their pen pals. The classes have been corresponding with each other through the kindergarten buddies program, an informal pen pal venture-- punctuated by periodic visits-- pioneered by Mrs. Kennedy and Mrs. Taub. Older participants get to serve as both social and academic role models for their younger pals. Younger children get to demonstrate growing reading, writing, and mathematical

abilities and to develop a vision of what their lives may be like in a few years' time.

What would a Groundhog Day visit entail? It entails compound words, of course! Students also reviewed geometric plane figures to make groundhog puppets.

Working together on this project allowed students the opportunity to discuss the concepts of both similar shapes and proportion. Official kindergarten buddy t-shirts were worn for this occasion. All participants received a commemorative certificate.

The kindergartners burrowed back to School 21 with their puppets in tow, and participants gleefully await their next visit—whether or not a groundhog has seen its shadow.

Alexander Hamilton's Business and Dance Classes Team Up

In a cross curricular project Mrs. Amanda Camp-Colon's dance classes and Mr. Hector Munoz's business class collaborated to make the **Alexander Hamilton Preparatory Academy** Winter Dance Show a success. Dancers worked to apply the lessons of the first months of school to their own choreographed pieces. The hard work paid off when audiences were wowed by the talent and artistry exhibited on January 29 and 30.

Meanwhile, business students completed a real world assessment of their newly mastered marketing skills by creating a plan of action for marketing and promoting the dance show. With attention to the four P's of marketing: Product, Price, Place and Promotional, Mr. Munoz's students created an action plan that included designing and printing promotional materials; developing a refreshment menu; designing a program; and providing support staff on the nights of the show. Principal George E. Mikros commented, "Here at Hamilton, we believe that collaboration between teachers allows students to see the connection between one area of study and another."

A Sweet Empowering Visit

Students in Mrs. Sanchez's Avid class were visited by Elizabeth native Dr. Ren, an Award Winning Naturopath from Union, NJ, who hosts the first Holistic Show segment on New Jersey Public Access Television called: "Think Healthy with Dr. Ren". In addition to being an Amazon best-selling author and founder of the NJ Holistic Chamber of Commerce, Dr. Ren regularly works with the community she was brought up in.

During her visit to **Victor Mravlag School No. 21**, Dr. Ren empowered the students to be active Health Consumers when it comes to integrative lifestyle choices. She spoke to them about achieving sound mind and body balance while on their journey to career and college readiness. Studies suggest academic success requires taking innovative, comprehensive approaches that nurture and educate the whole child. During her time with the students she introduced them to careers in health and medicine and left them with a sweet vegan treat everyone enjoyed.

Student of the Month

George Washington Academy School No. 1 recognizes an outstanding student from each class every month.

Students who are recognized must embody one of the weekly social skills highlighted during the month and they also must act Respectful, Responsible, and Safe

Congratulations to all students of the month!

100th Day of School

First and second grade students from Mrs. Milanes and Mrs. Alameda's class from **Madison-Monroe School No. 16** dressed up like they were 100 years old to celebrate the 100th day of school. Students were also encouraged to explore the number "100" in many fun-filled educational ways. Children in Mrs. Milanes' class did a writing assignment where students pretended to be 100 years old, and wrote a story about their life at that age.

Second grade students in Mrs. Alameda's class started their day off by "walking into the classroom 100 days smarter". The teacher created a banner with one of the zeros in 100 cut out, and then students had to figure out a way to squeeze through the hole to get into their classroom. Children also did math and writing activities related to the number 100.

Celebrating Unity and Creating Collages for African American History Month

For African American History Month, the pre-k students in Ms. Mazza and Ms. Janet's classroom at **Mabel G. Holmes School No. 5 Annex 5B** were given a child template to decorate at home with their family. The child template was a representation of the child. The child templates were hung in the hallway and connected hand to hand to represent unity and Dr. Martin Luther King's Dream. Students and parents also worked together on creating a collage of a famous African American in American History. The parents and students enjoyed working together and learning about unity and the contributions of African Americans throughout history.

Acts of Kindness

On January 10, a group of 5-8th grade scholars from **Jerome Dunn Academy School No. 9** volunteered to pay it forward. Accompanied by Ms. Lee and Ms. Woolford, the scholars visited the Alzheimer's Unit at Trinitas Hospital and assisted the patients as they played Bingo. This special Act of Kindness, put a smile on both patients' and scholars' faces. This experience taught them the true meaning of giving back to their community. Additionally, they learned that no matter where or what they do, one small act of kindness can change the world and bring a purpose to someone's life.

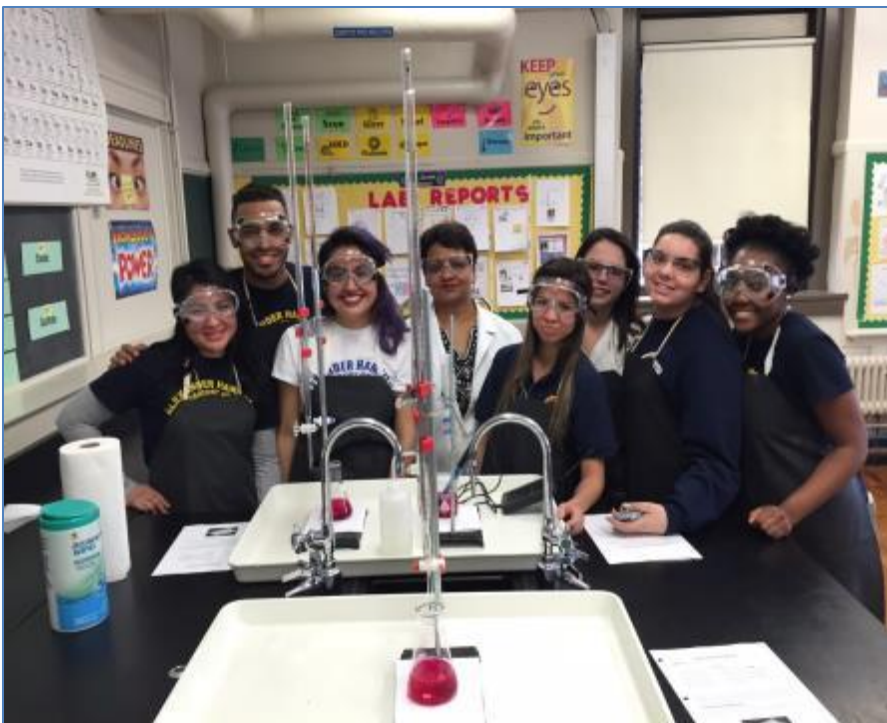

Student Blogs as Characters in Novel

Students at **Juan Pablo Duarte –José Julián Martí School No. 28** in Mrs. McLaughlin's 7th grade LAL class have created blogs to help further understand school core novels. Students needed to write their blogs in first person point of view. Pretending that they are the characters in the story allows them to further enhance their understanding of the story as well as the character's motivation behind their actions. To read entries from Bruna go to <http://bd201499.edublogs.org/>

National Academy of Future Physicians Honors Hamilton Science Teacher

Alexander Hamilton Preparatory Academy's Chemistry teacher Ms. Anna Jacob was recently honored by the National Academy of Future Physicians and Medical Scientists for inspiring so many of her students, past and present, to pursue careers in STEM fields. The Academy of future physicians was founded to provide information and guidance to students who have an interest in medical science.

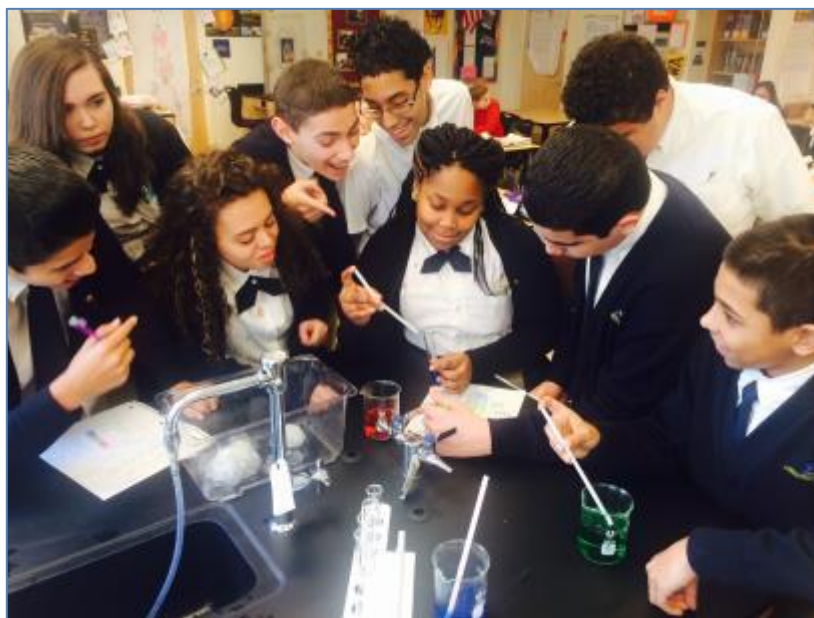

Upon receiving this recognition, Ms. Jacob commented, "As a science teacher, my main interest is to motivate as many of my students as possible to learn the intrinsic beauties and values of science. Since this is an AVID school, students are exposed to various college programs; I just play my part in encouraging them to pursue STEM education."

Temperature Matters with Properties of Matter

Eighth grade students in Mrs. Connie Sanchez's science class were able to create a lab that helped them understand why it snows. Matter of any type can be subdivided into particles that are too small to see, but can be detected by other means. While in their science class at **Victor Mravlag School No. 21**, the students discussed why water freezes and even created a data table that followed the three states of matter found in water: solid, liquid and gas. From this experiment they learned how precipitation and water temperature creates snow. Water, or in this case rain will not freeze unless it is 32 degree or lower.

From this basic understanding about atomic movement, they began to ask questions about water density and its stacking properties. They collected snow from outside and then boiled water to show that the temperature difference is enough to allow you to stack water in a test tube. They were able to conduct an investigation collaboratively to produce data to serve as the basis for evidence. Using basic weather information, using tests with controlled variables and their new knowledge about states of matter, they are able to understand when it may or may not snow.

JDA Unity Heart

As part of the mission to instill a culture of unity, each scholar, team member, parent, and guest at **Jerome Dunn Academy School No. 9** wrote, shared and placed their “love” note on the unity heart (I love my Mom; Yo amo mi familia; I love Math).

The HEART is displayed proudly in the center of the academy to be viewed for everyone that visits. The HEART symbolizes JDA’s philosophy “*together we can achieve.*”

100 Days of School

William F. Halloran School No. 22 @ 31 celebrated both the 100 Days of School and the Chinese New Year with many projects and activities. The second graders in Mrs. López, Mrs. Falcone, and Mrs. Sutura’s classes decorated a t-shirt with 100 items. This was a day to celebrate everything students have accomplished so far. It also helped students and faculty to set new goals for the rest of the school year to achieve success in school. The students also made a Chinese lantern and a Chinese hat to celebrate Asian culture. Learning about different cultures helps students understand each other and communicate with respect.

Student Gives a Lesson on Recycling

Ashley Landaverde, a first grade student at **George Washington Academy School No. 1** noticed that the office staff was not recycling properly, as the bottles were mixed with the paper. She immediately dove in and separated the items and advised the staff how it should be done. The Green Team presented her with an EXCELLENCE in Recycling Award to recognize her efforts and dedication.

First Grade Explorers

Miss Rallo's first grade class scientists from **iPrep Academy School No. 8** explored pebbles, sand, and silt as a multi-sensory experience. The students collaboratively observed and investigated rocks. They had the opportunity to work with screens to separate and group different river rocks by particle size. The class data and results were conclusive. The investigation was filled with enthusiasm and allowed students to develop and express their understanding of the natural world. The class continues to grow as scientific explorers.

Operation Contraction

During language arts literacy, third grade students at the **IPrep Academy School No. 8** had fun creating contractions by using an activity called Operation Contraction. Both the bilingual education teacher Mrs. Amaro and the general education teacher Mrs. Sarmiento guided the students to identify, make, and use contractions. The children practiced taking on the role of "word surgeons" wearing masks, gloves and using "operating tools" such as scalper (scissors), stitches (tape and glue), and bandages. It was a great opportunity for the students to integrate language skills with role play and work place readiness skills using kinesthetic, visual and auditory abilities.

Bicycle Award Ceremony

Willow Grove Presbyterian Church of Scotch Plains joined with Tools for Schools to donate 14 brand new bicycles to the students of **Mabel G. Holmes School No. 5**. Bilingual teachers Lucia Estevez, Anabel Alvarez, and Catherine Alvarez worked alongside the church community to build these bicycles at Willow Grove Presbyterian Church, Scotch Plains NJ. Principal Gonzales and Vice Principal Francisco selected 14 students to be awarded based on academic and community involvement. With the help of Cindy Lichtenstein, Ms. Boles, and Steve Zagafos the assembly was organized and children were presented with a bicycle, helmet, and lock system.

“Net Etiquette”

On February 11, **Juan Pablo Duarte –José Julián Martí School No. 28** held an assembly to explain the responsible use of social media and technology. Students in grades 3-8 enjoyed a power point presentation by school counselor Wilma Helm. Students were shown that Character, Responsibility and Integrity expand to the technological world that they are so much a part of. They were informed that inappropriate postings could be in violation of the law and not limited to New Jersey’s HIB law.

Media Specialist Charles Rosen assisted by providing the video “Net Etiquette” from Brainpop.com. Several students and team members commented that the program was enjoyable and informative.

Groundhog Day

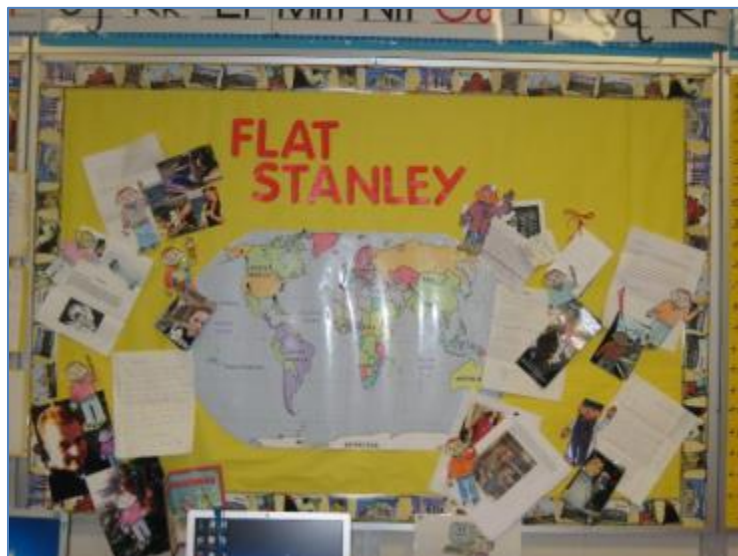

Groundhog Day is a day celebrated on February 2nd. According to folklore, if it is cloudy when a groundhog emerges from its burrow on this day, then spring will come early. But, if it is sunny, the groundhog will supposedly see its shadow and retreat back to its burrow and the winter weather will persist for six more weeks. What prevailed in room #234 at **Dr. Antonia Pantoja School No. 27** this year? Well for the answer you need to ask the students of Ms. Lana Nguyen & Ms., Janine Greco. Hint: Don't put your mittens and boots away!

Flat Stanley Visits Dr. Orlando Edreira Academy

A first grade class from an International Baccalaureate School called O'Connell Elementary School located in East Hartford, CT and sent Flat Stanley to **Dr. Orlando Edreira Academy School No. 26**.

Information about the city of Elizabeth and the school was sent back to help the students there learn about what makes the city and school special. Ms. Gumbman's class sent their own Flat Stanley back to Connecticut to return with similar information. Each student also made their own Flat Stanley and sent him around the world to friends and relatives to learn about many different places. Some of Flat Stanley's travels include Alaska, Portugal, Colombia and Arizona. The students are enjoying learning about the world around them!
